

Statement of Purpose

Possessing a unique and inventive idea is just like half battle won. And I Akash Patel as an engineering student have that idea and have got strong foundation for my analytical skills and understanding of Electronics and software. I am pursuing my B.Tech degree in Electronics and Communication Engineering from Ujjain Engineering College, Ujjain. Having technical knowledge can get me to a certain height but in order to secure a good position in future from where I can do something revolutionary for masses, I would definitely require managerial skills. Thus, I have decided to go for a management degree at IIM so that I could develop managerial skills as this esteemed institute is always one of the best for this development.

I have scored 9.6 CGPA and 89.6% in my Class 10th and 12th board exams from Gyan Sagar Academy School. After that I enrolled for B.Tech in ECE and apart from academics I have learned about programming and did some computer courses.

During my graduation, I did a summer internship, where I learned a lot about different programming languages and worked on several Machine Learning algorithms.

In the 3rd year of graduation, I worked as an Event Manager in college fest named ECHO which comprises of event ranging from Technology, Sports to Cultural. It was a good experience for me to manage such a big event with my batch-mates. After that even today I am working as a Secretary of EC society of college. ECHO fully opened my mind towards the management.

With MBA, I hope I will be able to strengthen my managerial skills and further more attaining a better knowledge of various market movements. I am looking forward to learning from my classmates and the experienced faculty to enhance my skill-set in the field of Information Technology and Electronics through managing concepts and techniques.
